

## **GEOTEX BALCONY** Drainage sheet for window boxes and wooden planters

A simple and practical way to keep compost and drainage layers separate in a planter. First, cut the felt piece to the size of your planter. Then place the Geotex Balcony at the bottom of the planter before filling with compost.

**Characteristics** 

In non-woven polyester. 100g/m<sup>2</sup>. Colour:

grey. Rot-proof. Made in France.

## **Benefits**

Non-woven felt in thermally bonded polyester fibres. Keeps compost layers separate from drainage layers in planters and pots. Stops compost from mixing with the drainage layer.
