

# BIRDY TRELLIS

Trellis to plant directly in the earth

Geometric in style and topped by a bird, BIRDY TRELLIS brings elegance, verticality, and vibrancy to your garden. This metal trellis is planted directly in the ground. Recommended for clematis and other climbing plants.

## Benefits

Support for climbing plants, along a wall, in a border... Provides verticality to the garden. Simply planted in the ground. Immediate installation and result. 3 trendy colours: red, green, blue. Hint at nature with the small perched bird.

## Characteristics

Epoxy painted metal. Round 10 mm diam tube, 3 mm diam wire. 0.25 m foot height.
