

NORTENE®

JUTESOL

Non-woven soil cover fabric

Non-woven felt of lightweight natural jute.

Benefits

Mulch based on vegetable fibres. Non-woven structure, exclusive to Nortene, lightweight and durable. Cuts down on watering and maintains the moisture at the foot of the plants. An ecological solution. Can be used for growing for 6 months.

Characteristics

Non-woven jute felt. Jute 90 % PVA 10 % (Polyvinyl acid). 140 g/m². Very small bulk on shelves for mulch of plant origin.
