

CHANVRELIN 500

100% natural mulch

A fully biodegradable solution for flower and vegetable gardens. Maintenance-free, extremely durable, reduces watering thanks to its water retention capacity. A solution for environmentally conscious consumers.

Benefits

- Increases soil temperature, promoting growth.
- Reduces the amount of irrigation needed and retains moisture at the plant's roots.
- The mulch provides adequate air permeability over the plant's roots in both winter and summer.
- No need to weed, as weeds cannot break through the mulch.
- An ecological and innovative solution for our garden and our planet.
- It decomposes on its own after its life.
- Easy to use: lay it on the given area, secure its edges with spikes such as SPIKE, FIXSOL and use a sharp knife to cut out an X shape where we can plant our given plant.

Characteristics

- Material: 80% hemp, 20% linen
- Degradation time: 12 months
- Weight: 500 g/m2
- Color: natural
- Available in several sizes!
